Abstract: This notice concerns the collection of information that is sufficient and relevant to evaluate and select proposals for funding under the NGGDPP. We will accept proposals from state geological surveys requesting funds to inventory and assess the condition of current collections and data preservation needs. Financial assistance will be awarded annually on a competitive basis following the evaluation and ranking of state proposals by a review panel composed of representatives from the U.S. Department of the Interior, state

geological surveys, and academic institutions. To submit a proposal, respondents must complete a project narrative and submit the application via www.grants.gov. Grant recipients must complete a final technical report at the end of the project period. Narrative and report guidance is available at <https://datapreservation.usgs.gov>, <https://grants.gov>, and <https://grantsolutions.gov>.

Annual data preservation priorities are provided in the Program Announcement as guidance for applicants to consider when submitting proposals. Since its inception in 2007, NGGDPP has awarded 46 states with \$12 million, which, when matched or exceeded by the states, amounts to over \$24 million invested in the rescue and preservation efforts. This notice concerns the collection of information that is sufficient and relevant to evaluate and select proposals for funding. We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and implementing regulations (43 CFR part 2), and under regulations at 30 CFR 250.197, "Data and information to be made available to the public or for limited inspection." Responses are voluntary. No questions of a "sensitive" nature are asked. We intend to release the project abstracts and identify states for awarded/funded projects only.
